## NEW BUILD, NEW ADVENTURE

The Brand New Building

*By Abubakar and Mathiyuthan*

On the 23<sup>rd</sup> September, 2024, our brand-new building was finally opened to the children and teachers of Speedwell and Strath Avon. The new classrooms are located beside the school's canteen on the playground.

The new building was started in April 2024 and took five months to build. During this time there was considerable disruption to both children and adults since one of the gates was closed, but it was all worth it

- the new building is a wonderful place to be in.

Mr Frost (the teacher in Strath Avon) said, "There is fantastic space for children. There is relaxing, breezy air conditioning and it is environmentally friendly as it has solar panels." He said, "I am so happy to have the best classroom in school!"

A student in Speedwell provided us with this quote:

"That is a nice place to learn in and that there is a lot space to move around."

Mrs Meer (Launde's Headteacher) told us, "The children of Speedwell and Strath Avon, have a nice environment in which to learn. They are very lucky."

Things that we have noticed our self is that it is very modern and clean for our two year five classes and instead of it having normal lights it has eco lights!

We are hoping that both of two class will respect this new achievement and that hopefully there will be more new builds.
